# Accounting

**WINAIR WEB ACCOUNTING** is a stand-alone, web-based application that delivers export functionality of received materials, repairs, exchanges and special services from any WinAir Express, WinAir Pro-SQL or WinAir Enterprise system to any accounting software. Flexible export options, multiple tax profiles and detailed transaction history makes this application an indispensable integration tool for your accounting needs.

## FEATURES AND BENEFITS:

### OVERVIEW

WinAir Web Accounting provides flexible search results, easy navigation and detailed historical transactions. The powerful transaction approval process allows accounting personnel to verify accuracy and approve or reject transactions.

WinAir Web Accounting can handle numerous simultaneous users and provides on-demand access to historical transactions. WinAir Web Accounting is the easiest way to automate transactions from any WinAir SQL series product into your accounting / finance system and eliminate duplicate data entry.

Select the WinAir Web Accounting for your organization today!

**DECREASE DATA ENTRY AND INCREASE ACCURACY.** Export functionality decreases data entry, while the built-in transaction approval process ensures costs in WinAir are accurate.

**IMPROVED WORKFLOW.** Built-in workflow standards allow WinAir to implement internal approval process standards perfect for hectic maintenance facilities.

**TRANSACTION HISTORY.** Analyze historical records of all transactions and transaction attempts anytime, anywhere.

**TAX CALCULATOR.** Quickly and easily setup multiple tax profiles with the WinAir Web Accounting.

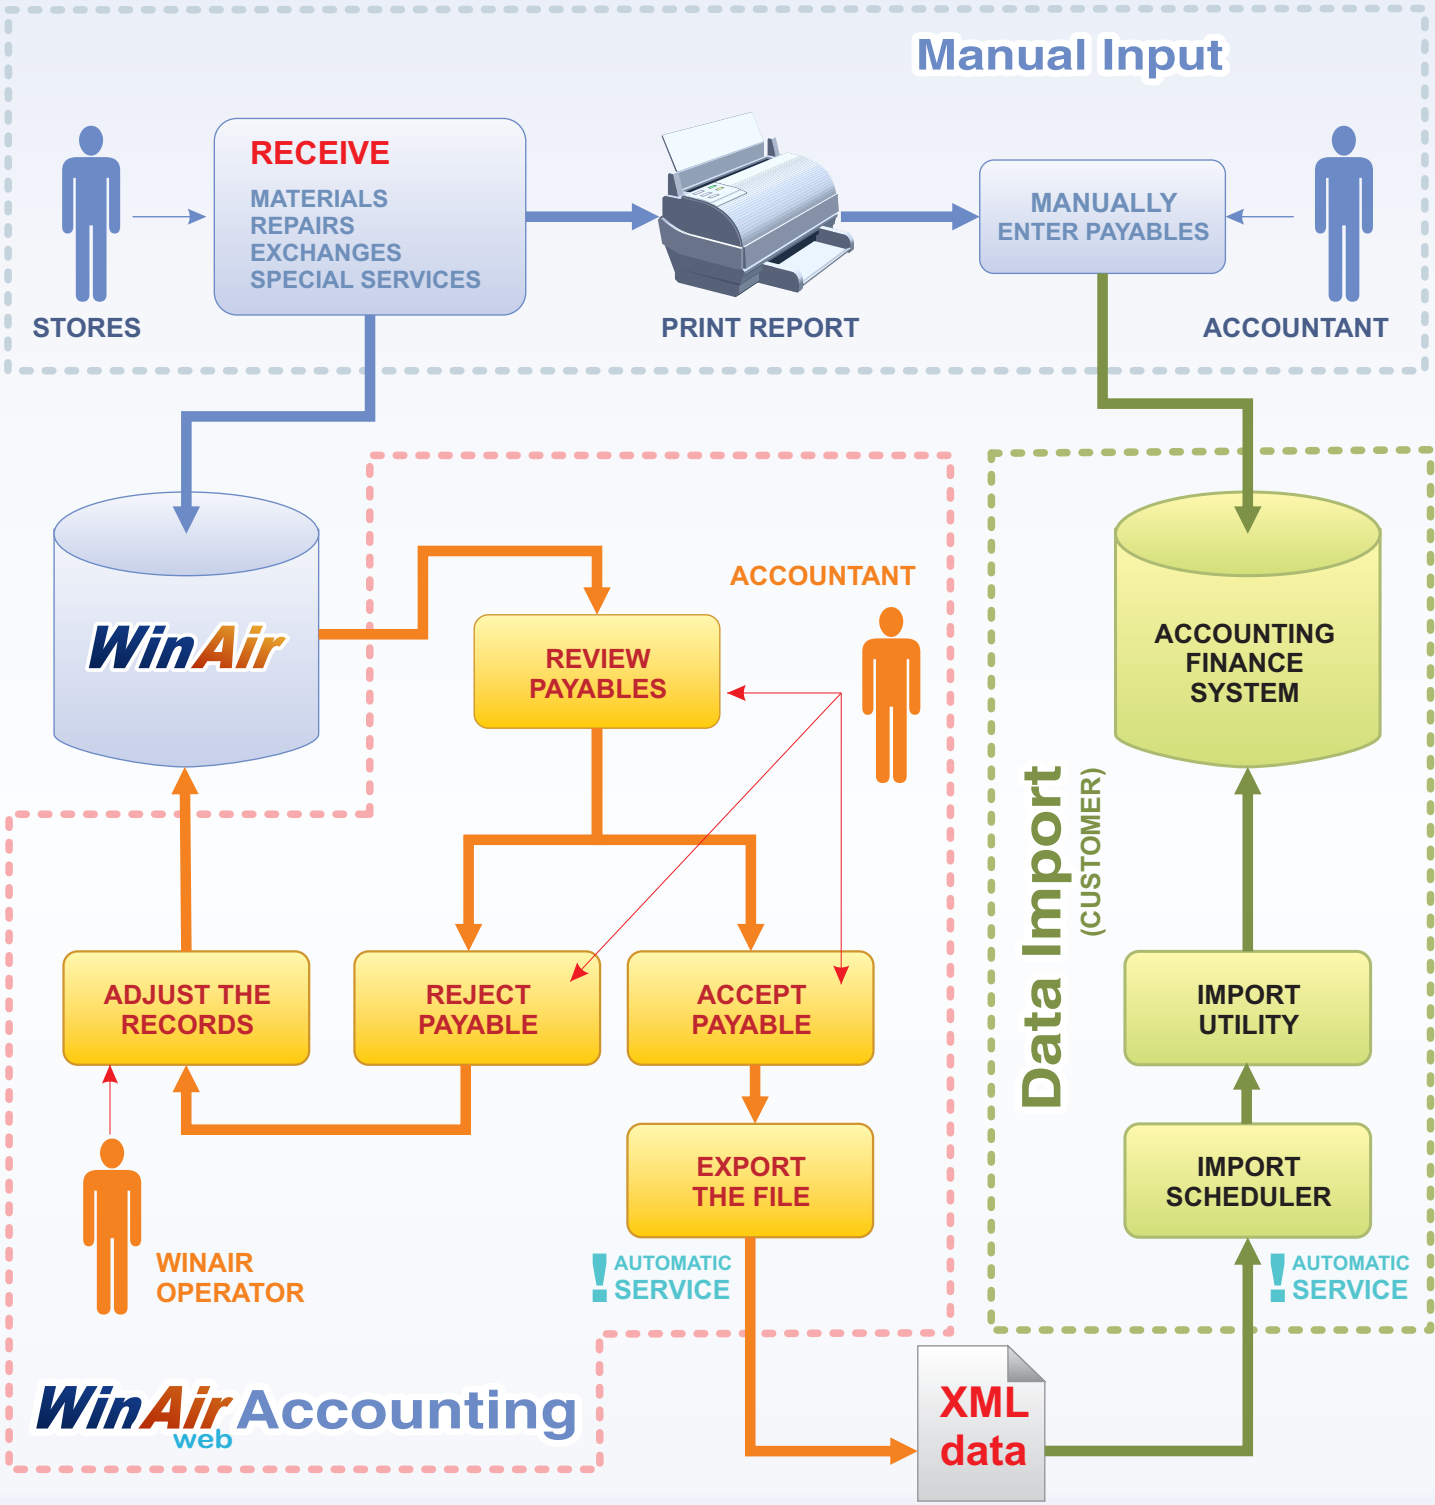

**FLEXIBLE EXPORT FORMATS.** The WinAir Web Accounting supports a variety of export formats and can be customized to meet the requirements of any accounting system.

**REMOTE ACCESS.** The WinAir Web Accounting is a web-based application that can be accessed from any computer, in any location with Internet access, delivering on-demand access to WinAir data.
